3. Uncle Wolfie's Breakfast Tavern
4. Su-We 7-4, Th-Sa 7-7
5. Tavern Class B, Outdoor/Sidewalk Dining
6. Uncle Wolfie's Breakfast Tavern is both a classic diner and a foodie destination, serving perfect egg bacon and potato plates, as well as imaginative dishes using local and seasonal offerings. We look forward to becoming a highly-regarded, popular destination for breakfast, lunch, and coffee during the week, and brunch and beer on the weekends.
7. 20+ years in varied fields of the service industry, and a team of equally or more experienced folks in both the front and back of the restaurant house.
8. Outdoor dining areas include the East side of the building (directly abutting the building, west side of sidewalk). We will be installing granite cobblestone pavers to replace the grass directly East of the building on the Hubbard St side. There will be the pavers on the South side of the building (Vine St). Finally, we will have available "picnic" seating on the West side of the building on what is currently a vacant lot. A designated smoking area might be proposed for the outdoor area on the North ¼ of the empty lot to the west of the building.
9. There are cameras on all sides of the exterior and covering all ground on the interior. The building is also alarmed on the doors and windows and equipped with strategically placed motion sensors for after hours security.
10. There will be an increase in automobile traffic, though we hope to discuss this matter soon with the HBHA. There may be some opportunities for an easement of any increased traffic with a little planning. In particular, encouraging a specific route or traffic pattern can encourage a more efficient parking routine for the patrons. And more efficient parking means calmer traffic.
11. Other than traffic and parking, we hope to impact the neighborhood positively, with good food and nice people at an establishment that cares about the city and the residents of Brewers Hill.
12. There isn't a place to grab a coffee and high five your neighbors or dig into a plate of eggs before work.
13. Absolutely
14. The business is owned by residents of Brewers Hill who are members of the HBHA. Supporting the business is supporting the neighbors and the neighborhood.
15. It's beautiful. It has all the elements we hoped to find in a live/work environment. There aren't any businesses like it in the neighborhood. It's seriously flipping beautiful.
16. We've already spoken to Alderwoman Coggs and officers from MPD D5.
